

## Quick Start Card

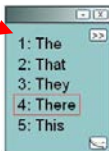

1. Open your word processor.

2. Open Co:Writer

3. Start typing!

Notice the words in the Co:Writer window. Typing more letters will change the words you see. Use your arrows or mouse to hear each word. Click or type the number of the word to put it in your writing.

4. Type numbers.

Minimize the Co:Writer window, type the number, then click the button at the bottom of the screen to bring the window back.

5. Listen to your writing.

Highlight what you want to hear and type ` (above the Tab key) to start or stop Co:Writer reading it to you
